What we already know:

- **We know that a long time ago people travelled by boats.**
- **We know the difference between a ship and a boat.**
- **We know people lots of people discovered new things through exploring.**
- **We know that Columbus made a mistake but what he found was a great achievement.**
- **Columbus was not the only person to discover new parts of the world.**

Year 1 and 2- Lives of significant individuals- Neil Armstrong

What's next?

- **Learn that Neil Armstrong was an explorer.**
- **Neil Armstrong explored the Moon.**
- **You can explore in boats and space rockets.**
- **The children will start to make comparisons between Armstrong and Columbus while discussing who made the greater discovery and who travelled the furthest.**
- **In year 3 the children learn more about trade and economy through time from stone age to iron age as well as the trading of goods for money.**

Christopher Columbus- 1451

The Great Fire of London- 1666

Victorian era- Mary Anning

Victorian era- Florence nightingale

1960S- Neil Armstrong

Present- 2024

Year 1 and 2

History of the world

Pilot and researcher

Neil Armstrong's passion for flying started at six years old.

He was a pilot he achieved highest rank possible (Eagle Scout)

He became a researcher for NASA. He spent 1100 hours testing for NASA and nearly died many times.

Apollo 11

Armstrong flew and landed safely on the moon.

The whole world watched on their TV's.

Society and Government

NASA

Government set up NASA to research and develop vehicles to go into space.

NASA stands for national aeronautics and space administration.

Russia and USA were in a race to see who could explore space the furthest.

Space exploration with dangerous and many people died.

Economy and Trade

Food

Food discovered in 1460 such as potatoes, tomatoes, fruits were available all year round.

Food could be stored and preserved in fridges and freezers.

Slavery

Black people were no longer slaves.

Many people found it difficult not to see them as slaves.

Beliefs

Freedom

1960s was a time of change in America.

TV made problems about equal rights more visible.

At the end of the 1960's black people could work eat sit and marry white people.

Many people were hurt earning their freedom.

Vocab

Tier One

TV	Change
Aeroplane	Slaves
Race	Pilot
Explore	Testing

Tier Two

Equal rights	Everyone is treated the same without being discriminated against.
Freedom	The power or act to think and speak however you like.
NASA	An organisation set up by government to explore space.
Neil Armstrong	The first man on the moon
Apollo 11	The name of the mission led by Armstrong to the moon.
Researcher	Someone who tests equipment for NASA.
Space race	The race to explore space the furthest between USA and Russia

Tier Three

Vehicles
Mission
Russia
USA
Buzz Aldrin
Jim Lovell
Eagle scout
